## **\*\*Summary Assessment\*\***

The candidate has shown limited understanding of the job responsibilities and expectations. They lack specificity in their responses and do not demonstrate a thorough knowledge of the role. The overall score indicates that the candidate is not well-suited for this janitorial position, as they fail to demonstrate the essential skills required.

## **\*\*Constructive Feedback\*\***

To improve, I would suggest that the candidate:

- Provide more detailed information about their experience with cleaning equipment and how they maintain cleanliness and organization.
- Use more descriptive language in their responses to make them easier to understand and relate to.
- Demonstrate a better understanding of safety procedures and how they address challenges in maintaining cleanliness and safety.

Future interviews, I would look for candidates who can provide specific examples, demonstrate a thorough knowledge of the job requirements, and have clear explanations for their answers.
